Dear Mr. Easterbrook,

This letter acknowledges the fact that Arts Management's Theater Manager v 9.0 software has successfully undergone a PA-DSS v1.2 assessment conducted by a PA-QSA from SecurityMetrics. Based on the testing conducted during the assessment, we found the Theater Manager v 9.0 software to be in full compliance to the PA-DSS requirements and have signed an Attestation of Validation (AOV) confirming our findings.

On July 27, 2010 the AOV along with the full Report on Validation (ROV) were submitted to the PCI Security Standards Council (PCI-SSC) for their Q/A review process. Before the Theater Manager v 9.0 application can appear on the list of validated payment applications published by the PCI-SSC, the ROV must undergo the Q/A review process. Currently the PCI-SSC review cycle is approximately 16 weeks from the date of submission. The council hopes this time will decrease in 2011.

If you or any of your customers have questions about our assessment of Theater Manager v 9.0 application against the PA-DSS standard, please do not hesitate to call me.

I hope this letter can be used to assure your customers that Arts Management has taken all the necessary steps to validate the Theater Manager v 9.0 application and that the final step is one that the PCI-SSC Q/A department must complete.

Regards,

Bruce Bogdan
